## “Sponsorship Letter”

January 1, 2005

We are very pleased to announce the creation of the Resource Information Center for Health, Technology, and Environmental Recovery Foundation.

Now, we would like to invite you to become a “Sponsor” of the Foundation. This will be a member driven Foundation and our objective is to advance issues that are relevant to the Health and Safety of employees and employers who are exposed to Diesel exhaust. In addition, we plan to have some educational and informational forums by which our mission will be brought forth. The events and the annual agenda will be developed with input from the members. It is believed that we are the only such Foundation in the nation and that we will be creating a model for others to follow. This provides you with the very unique opportunity to be a Sponsor of our foundation and to be one of the first to be involved from the ground up. We want this foundation to be educational and helpful for the members and the entire nation.
